Miss. Jensen's Grade 4

Hello CKCS family!

We have been working hard to ensure that your child continues their learning journey during this time. We miss seeing our students each day in the classroom and hallways. We have made a plan that will be ever-evolving to meet the needs of our students.

Every morning you and your child will be receiving an email from me with the assignments for the day. Assignment details and resources can be found on Google Classroom. We will be using some websites that we have learned together in class as well as new ones. There is one google classroom set up for each subject. Please be sure that your child has joined them all. We will start slowly. In the beginning, we will start with Language Arts and Math for the first week. After Spring break, we will begin to introduce lessons in Science and Social Studies as well. We will be learning together because this is new for all of us. We need to give each other grace and have patience as we journey together. If you have a public library card, you can access books, magazines, audiobooks, etc. online for free. If you don't, you can call the Stettler Public Library to get one activated.

If you are having any difficulty - please reach out to me via email or Remind. I am available during regular school hours and I will do my best to help. Remember to move every day, take time to pray, and enjoy! God's blessings upon you and your family.

God Bless - Miss Jensen
